Mathematics Camp.

SAAS and MEWA (Muslim Education and Welfare Association, a charity for poverty stricken people) organized a 4 day Maths camp at Tudor Day Secondary School for Secondary school students of Form 2, 3, 4 (ages 16-21) from different schools in Mombasa and its vicinity.

The objective of the camp was to inspire interest in the subject of mathematics (because the students find this the most difficult subject). Mathematics is an examinable subject for both primary and secondary students. The training was facilitated by Gina Woods, Henry Mc Loughlin, Fergus Toolan, (SAAS directors). And 3 benevolent donors, Dharshini Allirajah, Tony Mulin and Alan Coyne.

Students in a classroom listening attentively.

The camp was a success and more than 150 students attended the classes and were optimistic that their grades were going to improve. At the completion of the camp all the students who attended the camp were honoured and each was given a Certificate of attendance

Student posing for a photo after receiving her certificate.

The four days were a success and all the students wanted SAAS to stay for longer to help them with other subjects.

Some of the pictures that were taken during the camp.

Graduation Day at Kisauni Youth Polytechnic.

SAAS was also invited to a graduation Ceremony for some of our students who are attending the vocational training and who had completed their 2 year courses. 3 of our students completed Mechanics, 1 did Hairdressing, 1 did Carpentry and 3 doing Electrics. Funding these vocational training courses provides vital work skills for those who have no other job prospects in an area with very few employment prospects.

Triza's Corner.

Triza Mghanga (18) is one of the first SAAS students and is now in her final year in Secondary school and she is still having dreams of becoming a

journalist. She still writes her poems that surprise everyone and below is one of her recent poems entitled "Beautiful SAAS".

You are so beautiful
So beautiful, indeed, so beautiful
You are full of wisdom, full of ideas
You are full of plans, full of concern
Did you know that you are beautiful?
If not, you better be informed
Little did we know, we would be what we
are now YES, that is you SAAS.
We term ourselves lucky
To have some to train
All that we've learnt
We'll share with others,
Your director, not forgetting
Your team you've been so supportive
Your smart personnel, in thoughts and
deeds
We thank you all, may God bless you.
Journey of our lives has not been easy to
us,
The struggle, the pain and sorrow we
suffered
Our experience we gave, you really
sympathized with us. By now all that is a
bygone Coz you are there, SAAS you are
beautiful.
Friends we made from our respective
schools
Old and new, the experience we shared
made us know how life treats people; we
encouraged each other and hoped for the
best
Now we know how beautiful you are coz
we are the way we are b-coz of you
BEAUTIFUL SAAS!
It's time to say "Asante"
"Asante" for the changes you've made to
our lives how grateful, and proud we are
of you, our lives we'll never be the same
again! "Asante" on behalf of SAAS
students!
Our beautiful SAAS live long!!!
