Issue No 23

MID-BREAK

Most students are currently on their mid break which takes approximately 3-5 days. Mid break normally takes place immediately the students have finished their midterm exams. This encourages the students a lot as it gives them time to re fresh their minds and see their family after a few months in School.

COMPUTER INTAKE

In early May, SAAS was privileged to enrol another batch of computer students. A huge number turned up ready to acquire lots of computer knowledge. This was encouraging as it shows how massive the SAAS computer department is growing as we are one of the only institutions which offer free computer classes. We would like to offer a huge THANK YOU to the members of SAAS Youth Group for giving up their own time to teach the 80 students.

Orientation morning with the new intake of computer students. One of the tutors Wellington Mshote giving a welcome speech.

SCHOOL RE-OPEN

Many students were happy to report back to school on time with their school fees paid in full. Students normally have 3 terms in a school year and term two is usually the longest and busy term for everyone. Apart from education, extra curricular activities also take place. This includes, sports and music festivals. Many schools take part in competing in these competitions and festivals.

EASTER HOLIDAY

All students reported back to the office after the schools were closed in April. They brought their exams results and they let us know how they were coping in school. Most of them didn't travel upcountry to celebrate Easter. Instead they spent their time

studying in the SAAS office library. They also got to meet with other students and had study sessions together. Some students got to have a 1-to-1 counselling with our Student advisor.

Some of our students studying in the SAAS library during the Easter holidays.

COMPUTER GRADUATION CEREMONY

We were also privileged to host another Graduation ceremony for the January intake of computer students. These students were very happy with the computer knowledge they received and are keen to put their skills into practise now. We wish them all the best as they venture out and seek computer related work.

Awarding certificates to the computer students. All the computer students and their tutors outside the SAAS office.

DONOR VISIT TO THE ORPHANAGE

Former SAAS CEO Mrs Ebby Soinani visited the office early march accompanied by His Husband Mr. Peter Becker. They brought along lots of gifts which together with the SAAS Staff and the youth group, they were able to donate to several children orphanages in Mombasa. Among those who benefited was Canaan orphanage and Hope kid school. These two orphanages experience a lot of hardship as they have minimum funding; they mostly depend on well-wishers to help them out. The government has frequently dropped children at these two orphanages in the wee small hours of the morning. We interacted with lots of the kids who ranged in age from 8 months old to 15 years. The kids were very happy to see us and we had a lot of fun together.

Pupils at the Hope Orphanage School eagerly awaiting some donated gifts.

Canna kids providing entertainment by putting on a show.

SAAS's benevolent donor Mr Peter Becker with the SAAS youth group and the kids from Canna school.
