

SAAS

SPONSOR AN AFRICAN SCHOLAR

Daniel Nyongesa

Daniel is 17 years of age, he is currently in form 2 and day scholar at Khamisi high school. Daniel is an above average young man whose future ambition is to become a medical doctor.

Family Background

Daniel is an orphaned who stays with his siblings in one room rented Swahili house. Their uncle who is a brother to their dad helps them with the rent and acquiring their daily meals. Daniel is the last born in a family of 4 kids which is composed of two girls and two boys. Daniels brother passed on early last year as he had drowned on the swimming pool.

Daniel was helped by the well wishers to join secondary school. His uncle works casually as a builder. On a good month he makes 100e which he shares among his family and spares some to Daniel and his siblings.

Daniels has the fear of not completing secondary school as he is always send home to collect fees. He ends up staying most of the time at home as has no one to turn to in case his uncle does not have money. Daniel enjoys football and also he loves sciences and mathematics.

We feel that if Daniel is given a chance he can make wonders in his life and hence and save his family from the poverty which they are currently in.
