

SAAS

SPONSOR AN AFRICAN SCHOLAR

Faith Kimanzi

Faith is a young lady aged 16 years old. She is currently in form 4 at Our lady of Fatima secondary school. Faith finished her primary education in November 2015. She is an average student this is shown from her performance.

Family back ground

Faith is the first born in a family of five children which is composed of two girls and three boys. Faith's young siblings are still in primary school. They are all schooling in a government school which is very free here in Kenya. They all stay with both of their parents in one room Swahili house which has electricity but no running water.

The family depends on the dad who is working as a motorcyclist. He rents it on a daily basis, works with it in carrying passengers then returns the motorcycle to the owner. On a daily basis the family earns approximately 20 euros. With this they have to feed, save some money for monthly rent, pay fees etc. Due to minimum income per day the family has one meal per day so as they can save the money to pay for their house rent. Faith's mum depends on the neighbor to offer her job like doing laundry so as to help with the family.

Her dad is currently in distress as he has lots of bills to pay in addition to paying the loan which he took from a friend so as he can enroll Faith in secondary school. Faith is a hard-working lady though she is sent back home frequently to collect fees. This has affected her performance in class.

We feel now she has a chance with this bursary she will be able to settle and focus fully on her studies.

Education Background

Faith dreams to become a medical doctor. She enjoys doing religious subjects and history. While at school Faith has enrolled herself in a football club.

EMPOWERMENT THROUGH EDUCATION
