Khadija comes from a polygamous family whereby her dad has 3 wives this include Khadija's mum. Her dad works as security guard in a hotel. Khadija's mum is a house wife who depends on her husband to provide for basic needs. On a monthly basis his dad earns 100euro which is divided among the three families.

Khadija is the 4th born in a family of 4 girls. Two of her elder sister are married and have their own lives. While the remaining sister is at home and has no job with less education.

Khadija is the first child in her family to acquire secondary education. She managed to join secondary school through the help of CDF (community development funds) bursary which paid for part of her school fees.

Khadija is always sent home because of fees and this keeps on affecting her performance in class. According to her mother the dad is always complaining of lack of money hence causing Khadija to stay at home. Her mother had opted to look for casual jobs so as to help the family. This at times its fruitful as she get to do cleaning to the neighbours although at times she is not lucky.

Educational back ground

Khadija is a member of drama group in her school. She enjoys languages and religious subjects.

We feel that since she has a chance of being in school the whole time, she will use the chance very well hence performing very well in her studies
