

SAAS

SPONSOR AN AFRICAN SCHOLAR

Grace Bahati Makorani

Grace is 18 years of age. She was born on 26th of April 2001. Currently she is in Form 4 and is a full-time boarder at Matuga Girls High School. She is an above average young lady with a mean grade of B- from her previous academic performance.

Family Background.

Grace is the 2nd born in a family of three kids which is composed of 2 girls and a boy. Her eldest sister is currently working casually at a spare parts shop. Her mum is working in a football hall. All the kids are staying with their mother. On a good month both her mum and her sister makes 70e. This is used to put food on the table in addition to meeting other family expenses like medical bills. They are staying in a rural area, their house is made of mud and has a grass roof. They don't pay rent on it since it is inherited from family.

Grace's dad works as a police man and has another family which he spends more time with. Her dad's salary is divided among the two families. His has two kids from his second family. The amount which Grace's family receive from their dad is very small and is not enough to keep her in school all throughout the term. Grace is always sent home because of school fees. Recently she has been away from school for a period of 3 weeks until her class teacher called her back to school. Her class teacher always defends her to the school management. He always sweet talks them so as they can allow her to be in school despite lacking fees. This is because Grace is a bright young lady whom he would not like to miss in class.

Educational Background

Grace future ambition is to be an accountant while her favorite subjects are mathematics and business. She is also a member of the scouts.
