

SAAS

SPONSOR AN AFRICAN SCHOLAR

STUDENT PROFILE

NAME: Graham

AGE: 19

SCHOOL: Chuka University

COURSE: Bachelor of Science (Computer Science)

Graham is 21 years old. He has been a SAAS student since 2019.

He is currently at Chuka University pursuing a degree in Computer Science. He is now in his final semester and is expected to graduate in December.

Before SAAS stepped in to assist him, Graham was losing hope of ever completing high school.

He sat for his Kenya Certificate of Primary Education (KCPE) exams in 2018 scoring 315 marks out of 500. He secured a spot to join Tudor Day Secondary School.

Unfortunately, he was unable to join school on time because his parents could not afford the fees. But thanks to SAAS, he was able to join school and is now in university pursuing his dream of becoming an IT expert.

Graham is the fourth born in a family of five: two boys and three girls. They live with their parents in a two-roomed house without power or running water.

His younger sibling is in primary school while his elder ones dropped out of school and engage in manual jobs to support the family.
