

## STUDENT PROFILE

**NAME:** Idd

**AGE:** 16

**COURSE:** Secondary school education

---

Idd is 14 years old.

He is now in form two and will complete his secondary school education in 2027. The scholarship opportunity he secured from SAAS has made this possible.

Idd sat for his Kenya Certificate of Primary Education (KCPE) exams in 2023, scoring 303 out of 500 marks. His dedication, hard work, and natural intelligence are evident in his academic achievements.

He aspires to become a Doctor, a dream that he is determined to turn into reality.

Idd and his six siblings stay with their parents at their rural home on the coast, which has no power or running water.

His parents, who are peasant farmers, work tirelessly on the crops they cultivate, often facing the uncertainty of weather and market prices. They also rely on the kindness of well-wishers to support their children's education, a lifeline that has been crucial in their journey.

At first, Idd was afraid he might not join secondary school due to the family's lack of funds. The struggle was real, and he saw himself like his elder siblings, who were always in and out of school due to the lack of school fees. They depend on bursaries and well-wishers.

He heard about SAAS from his friends who had once been helped here and dashed to the office to seek help.

Since then, SAAS has become a beacon of hope for him and his family as he works to secure his dream.
