

STUDENT PROFILE

NAME: Josephat

AGE: 23

SCHOOL: Jomo Kenyatta University of Agriculture and Technology

COURSE: Degree in Public Management and Development

Josephat is 23 years old.

He is a third-year student at Jomo Kenyatta University of Agriculture and Technology (JKUAT) pursuing a Bachelor of Science degree course in Public Management and Development.

He will graduate in 2026.

Josephat has been an SAAS student since graduating high school in 2019 and is performing well academically.

He is the third born in a family of six children: three girls and three boys. They live with their mother, who works manual jobs to provide for the family. His father passed away when he was ten.

Josephat and his siblings live with their mother in a single room with power but no running water. They have endured hardships in their pursuit of education.

After completing his primary education in 2018 at Kongowea Primary School, Josephat lost hope because his mother could not afford his secondary school fees.

However, thanks to the benevolent gesture from SAAS, Josephat joined high school and is now in university.

Undeterred by his circumstances, Josephat remains committed to chasing his dreams as he looks toward a promising future.
