

KEMMY

Kemmy, a remarkable and promising 18-year-old, is currently in Form 4 as a full-time high school border student, all thanks to the support of the SAAS organization. Her academic journey, which is set to culminate in November 2024, is marked by her exceptional dedication and passion. It's clear that a future filled with success and achievement, driven by her unique qualities, awaits her.

Kemmy, the second of three siblings, lives with her parents, who work tirelessly to support the family. Her mother, a skilled tailor, and her father, an office messenger at BSS Africa Company, have been hit hard by the financial repercussions of the pandemic. Despite her father's salary being reduced to 150 euros per month, a fraction of what it used to be, the family manages to make ends meet, juggling various expenses including rent, school fees, and household needs.

Kemmy, who has an elder brother also in high school, understands the financial strain her education puts on her parents. However, with the support of SAAS, she can now focus on her studies and pursue her dream of becoming an accountant. The sponsorship has not only relieved her family's financial burden but also filled her with a deep sense of gratitude and determination to make the most of this opportunity.

Kemmy's dedication to her studies is matched only by her passion for extracurricular activities. Her love for Math, science, and English is not just academic, but a true passion that she brings to life in her studies. Beyond the classroom, she finds joy in drama, music festivals, and Netball, showcasing a well-rounded approach to education that is a testament to her character and potential.

EMPOWERMENT THROUGH EDUCATION
