

STUDENT PROFILE

NAME: Patrick

AGE: 21

SCHOOL: Moi University

COURSE: Bachelor of Science (Computer Science)

Patrick is 21 years old.

He is a final year student at Moi University pursuing a Bachelor of Science in Computer Science.

Patrick has been a SAAS student since 2018 when he first joined high school. The invaluable support from sponsors has seen him through school, and now he is inching closer to achieving his dream of becoming a computer and IT expert.

Patrick is the first child in a family of seven: six boys and a sister. They live in a single room with power but no running water.

Life at home has not been easy for Patrick and his siblings. Going hungry has been a norm, and they have been repeatedly locked out of their house due to rent.

Patrick's father engages in casual jobs while his mother is a housewife.

Due to the family's financial challenges, Patrick was always sent out of school for fees. However, all this changed when SAAS stepped in, bringing back hope to Patrick and his family.

Having been taken through high school and now university, Patrick has continued to demonstrate his commitment and determination to better his life through his excellent academic performance.

His resilience has also been evident outside school, as he is a talented footballer.

All this has been made possible through the benevolent gesture of our sponsors, to whom Patrick remains forever indebted.
