

SAAS

SPONSOR AN AFRICAN SCHOLAR

ELIZABETH

Elizabeth is 15 years old.

She is currently in form three and dreams of becoming a lawyer one day.

Elizabeth is the firstborn in a family of two. She and her brother are living with their mother after their father passed away years ago. They live in a single room with power but no running water.

Elizabeth's mother sells charcoal to make ends meet. She sometimes does manual jobs like washing clothes for neighbours to earn an extra living to feed her family.

On a good month, she makes about 100 Euros, which is still not enough to support the family and send her children to school.

Elizabeth is often sent home for fees, but this has not stopped her from working hard academically.

Her favourite subjects are Social Studies, Mathematics, and Science. In her free time, she enjoys reading storybooks and listening to music.
