

OMAR_MWADZIWE

Omar is 18 years old.

He is currently in form three and dreams of becoming a Doctor one day.

Omar is the firstborn in a family of five: three boys and two girls.

They live with their parents in a single-room mud and makuti-thatched (coconut leaf) house that has neither power nor running water.

Omar's father is a boda-boda (motorbike) rider, while his mother sells food on the streets to earn a living. The little his parents make is barely enough to support the family and send the children to school.

Omar has been surviving on bursaries but is always sent home for fees as his arrears accumulate.

He hopes to secure sponsorship and promises to work hard in school if granted the opportunity.

His favourite subjects are History, Chemistry, Biology and Mathematics. During his free time, he enjoys playing football.
