SPONSOR AN AFRICAN SCHOLAR

## ROBERT YAA

Robert is 18 years old and currently a Form Three student.

His dream is to become an Engineer one day.

Robert is the third born in a family of seven: three boys and four girls. His father is deceased, and he and his siblings live with their mother.

They live in their village house on the North Coast, which has no power and running water.

Robert's mother is the family breadwinner. She does manual jobs like doing laundry for the neighbours, but she barely makes enough to meet the family's needs.

Robert has been surviving on bursaries and well-wishers who have helped him be in school, though when sent home; he stays home for almost a month before he gets school fees.

His plea is for a well-wisher to come to his aid and secure his stay in school so that he can learn without interruption.

Robert's favourite subjects are Chemistry, Agriculture, Physics and Mathematics. In his free time, he enjoys playing football.
