

STUDENT PROFILE

NAME: Tevin

AGE: 15

SCHOOL: Butere Boys High School

COURSE: Secondary School Education

CAREER: Medical Officer

Tevin is a 15-year-old Grade 10 student at Butere Boys High School in western Kenya. He dreams of becoming a **Medical Officer** and is already showing strong academic promise.

In 2025, Tevin sat for his Kenya Junior School Education Assessment (KJSEA) and achieved an impressive score of **65 out of 72 points**. His excellent performance earned him a place in a national school; however, his ability to take up this opportunity depended entirely on access to financial support.

Tevin is the firstborn and the only boy in a family of five children. He lives with his parents in a modest double-room house with electricity but no running water. His father works as a cleaner, while his mother is employed as a shop attendant. Despite their combined efforts, the family's income is barely sufficient to cover daily needs, making school fees a significant challenge.

With the support of a SAAS scholarship, Tevin's education has been secured, giving him the confidence to focus fully on his studies without the fear of being sent home for fees. He strongly believes that with continued support, he can excel academically and achieve his dream of working in the medical field.

Beyond academics, Tevin is a talented musician who plays both the piano and the violin. He also enjoys playing basketball. His favourite subjects are Science and Mathematics, which align closely with his career aspirations.
